

Our Philosophy

Having as our main principal idea that **“A Ship Is As Good As The People Sailing On Her”**, Global gradually accommodated a vast number of vessels providing quality services to its principals and through the commitment of Global in improving and developing the management system in its branches. All of our branch offices acquired, passed and possess ISO 9001:2008 Quality Management System (QMS) and Maritime Labour Convention (MLC) certification.

The high retention rate proves loyalty from our seafarers towards Global and our clients .

Through the implementation of ISO 9001:2008, we ensure Quality in all Management Levels and maintain a harmonic relationship between Ship Manager – Global – Seafarer.

Continuous growth

Your Global Partner in Crewing
